the capability of giving the book to travelers going into the USSR for internal distribution. Some American travelers will similarly carry the book into the Soviet Union. Plans are also being made to mail a certain number of the books to students and members of the Soviet intelligensia.

5. An attempt is being made to inform
Pasternak that an Excrow account from the sale of the book has been
set up in his name. Pasternak will be told that funds from
this account will be available if he is ever in a position to
use them.

MEMORANDUM FOR PP NOTES

SUBJECT: Publication of Pasternak's Dr. Zhivago

1. The Russian edition of Boris PASTERNAK's novel Dr. Zhivago
will be published this week by in Holland. Arrangements have
been made for to receive the first thousand copies of the
book off the press. These will be distributed to Soviet visitors
at the Brussels Fair and in Western Europe The
has been instrumental in having the original Russian edition
of the book published. Observing that this great anti-communist
philosophical novel was being published in Italian, French, English
and German, and realizing that there was little chance of Soviet
authorities publishing it in the Soviet Union, we felt that the
book should be published in Russian for Soviet readers. A copy
of the original Russian manuscript was obtained from
who agreed that it should be published but asked that it not be
done in the U.S. Pasternak had himself requested that for his
personal safety and other reasons the Russian edition of the book
not be published in the U.S. Every effort was made to honor the
author's petition.
2.14.2
2. Inorder to expedite the publication of the book, arrangement were made to have the manuscript typeset in New York. When this work was completed, negatives were made from the reproduction proofs
